Description: This house is located south of a power line corridor. A small pond is located behind the house to the east. This one-story, three-bay dwelling is covered by a gable roof of standing seam metal, is clad with weatherboards, and is set on a foundation of concrete blocks. Windows are one-over-one metal sashes. The entrance, located on the north end is surrounded by a three-light transom and three-pane sidelights. Plain board siding is located above the entrance. Details on the house include a moulded cornice, a denticulated frieze, decorative brackets, and gable end returns. A single concrete block flue is located on the east side of the house.

A two-bay, gable-roofed addition has been constructed on the east side of the house. It is clad with weatherboards, has a roof of composition shingles, and is set on a concrete block foundation. A porch of plywood boards has been built around the north and east sides of the house.

National Register Eligibility Information *(Intensive Level Survey)*

Historic Time Period(s): ..... P- Reconstruction and Growth (1865 to 1914)

Significance Statement: This late-nineteenth century, Victorian-style dwelling shares some detailing as seen at the dwelling at Fox Run (VDHR #046-5092), which is located on the property to the north. This may have been a wing (kitchen?) that was formerly attached to the dwelling. The house most certainly was moved to this location, and therefore, does not retain its integrity of setting or location. Although is good condition, the dwelling does not exhibit significant architectural design. The resource has no apparent association with any event or person important in our nation's history and does not appear to have the ability to yield important information. For these reasons, the resource is recommended as not eligible for the NRHP under Criteria A, B, C, or D.
